

DMC Machine Embroidery Thread - 50 Wt. Cotton - Art. 237

Please note: We have matched, as closely as possible, the listed thread brand color matches. For some DMC colors, there are no close matches. The actual thread colors may differ from both the screen and printed colors, due to the variations in screen and printer color displays.

Our Vermillion Stitchery design models are all stitched with DMC Cotton Art 237 50 wt. machine embroidery thread. Some of the DMC numbers listed are not available in their Machine Embroidery Thread. For those colors, we substitute either another DMC number that is available or the other thread brands listed in the Substitute Colors columns.
