

# Vista CD Installation Instructions

Place the CD in your CD Drive.

There will be a short wait for this window to appear. Please be patient!

**Click on Run Setup-EssentialDog-CD.exe** - The Setup program will run and you can install your files.

**To** display the contents of the CD. without running the Setup File,  
**Click on Open folder to view files**, to display the contents of the CD.

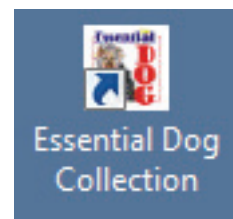

---

## Shortcut Information

A Shortcut for this collection will be installed on your Desktop. Since Vista has changed some things, you will need to edit the Properties of this Shortcut to display your installed files.

**Right Click** on the Collection Icon on your Desktop.

**Click on Properties** to open the Shortcut Properties Window (see next page).

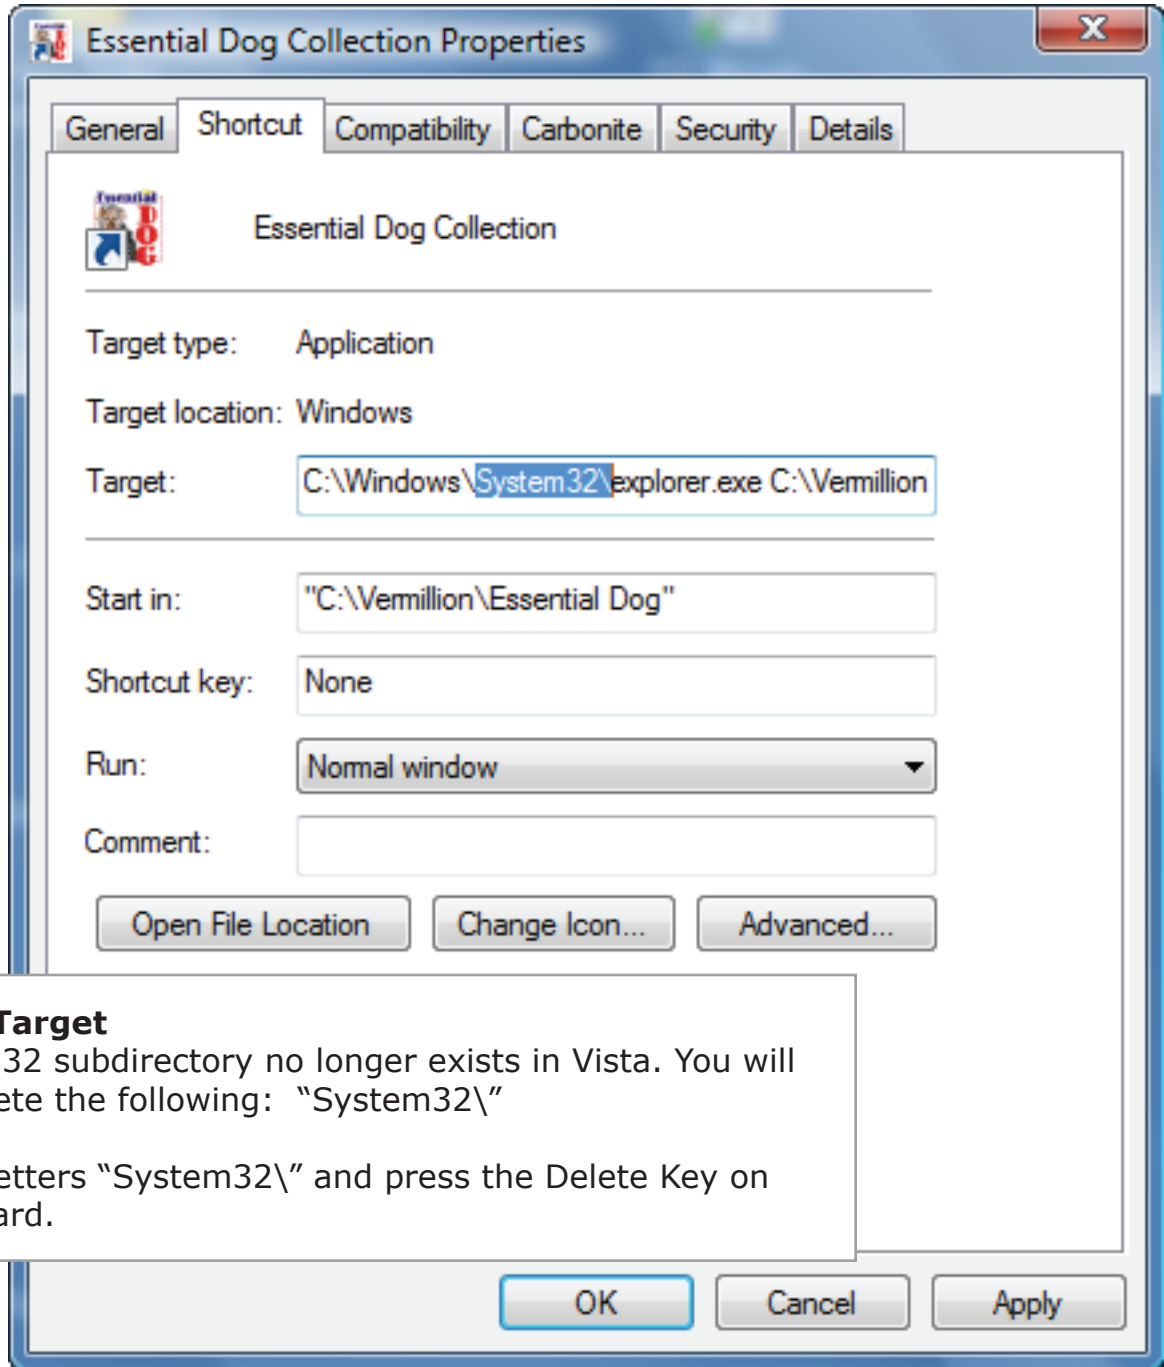

Collection Icon

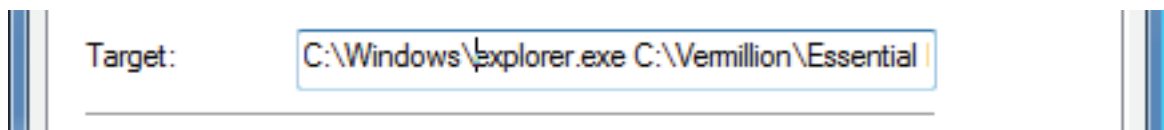

## Shortcut Properties - Incorrect Target

**Right Click** on the Collection Icon on your Desktop.

**Click on Properties** and this window will open.

## Correct Target

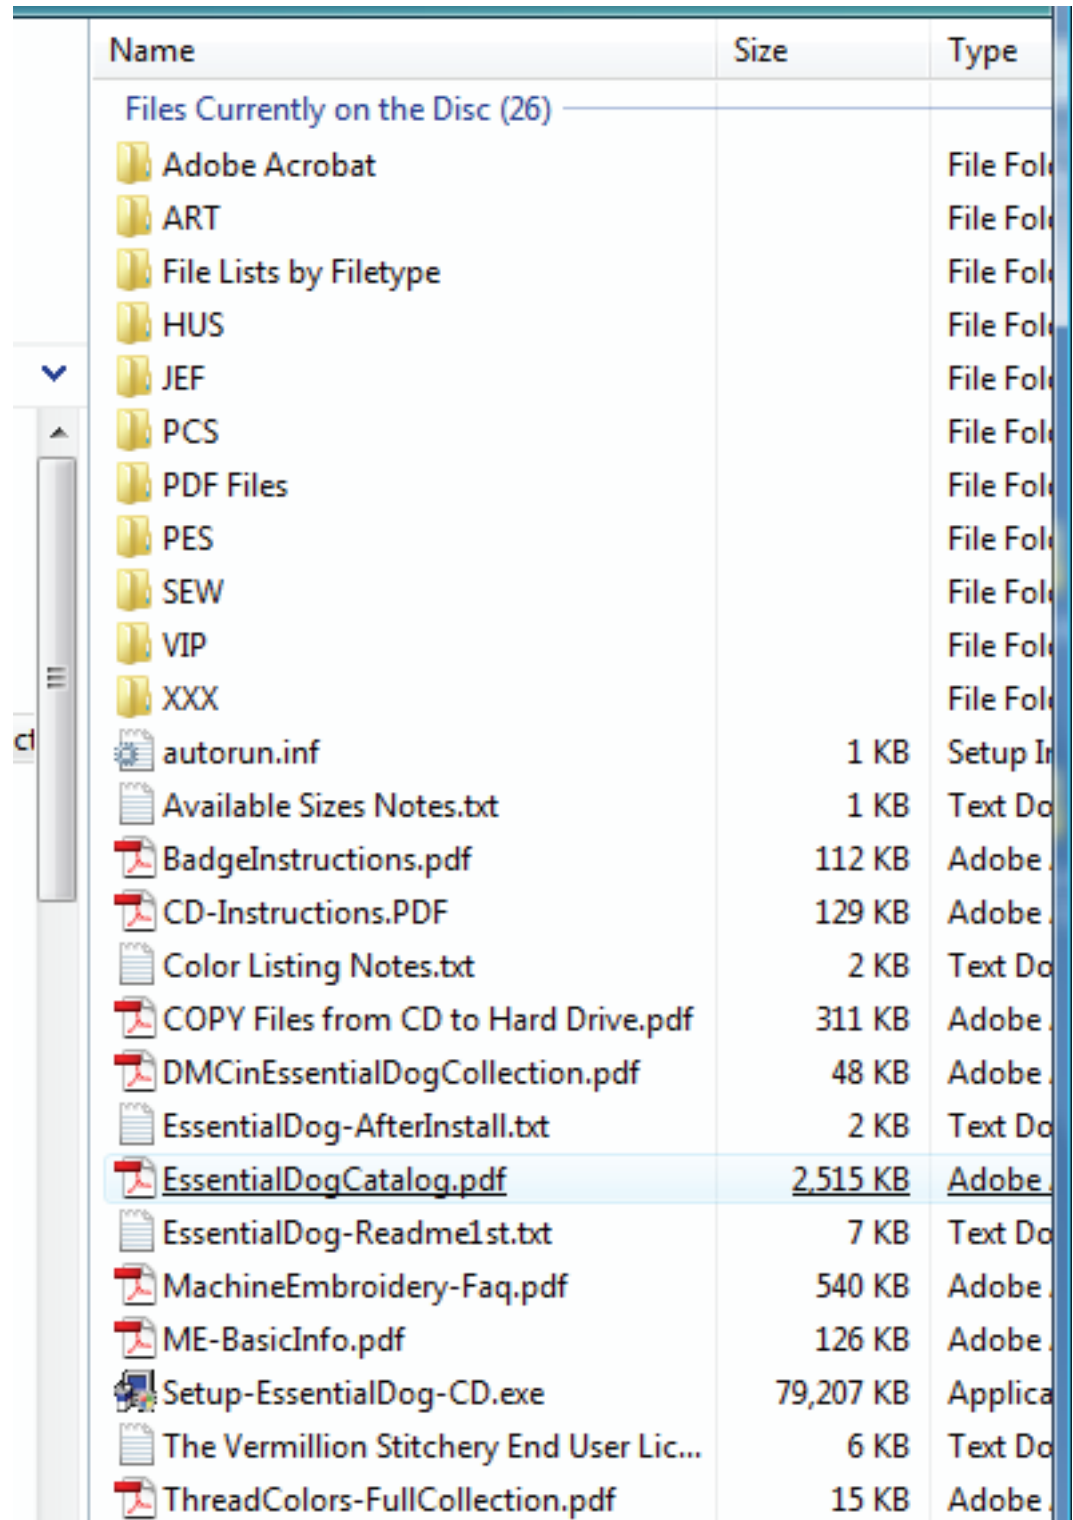

**Now, when you click on the Shortcut, your files will appear in Explorer.**

## CD Contents

This Explorer Window displays when you click Open Folder to View Files on the AutoPlay Window.

Note: There is a **Setup-Essential-Dog-CD.exe** file in this folder. You can also run the Setup by clicking on the file.

You will need to let Windows "Allow" this file to be run.

| Name                                     | Size            | Type                      |
